Updated Dec, 2023

## EMPLOYMENT

---

**Courant Institute, New York University**

Assistant Professor/Courant Instructor

New York, NY

2023/9–

## EDUCATION

---

**California Institute of Technology**

Ph.D. in Applied and Computational Mathematics

Advisors: Thomas Y. Hou, Houman Owhadi, Andrew M. Stuart

Pasadena, California

2018–2023

**Tsinghua University**

B.S. in Pure and Applied Mathematics, GPA ranked 1st

Beijing, China

2014–2018

## RESEARCH INTERESTS

---

My research lies in the intersection of **applied and computational mathematics**, **computer science**, and **data science**. I am interested in analysis and algorithms in scientific computing and scientific machine learning, particularly in numerical analysis, statistical inference, sampling and optimization, with applications in physics and data science.

## TEACHING

---

### Instructor at NYU Courant

- Discrete Mathematics Fall 2023

### Teaching Assistant at Caltech

- ACM 109: Mathematical Modeling Spring 2021
- ACM 118: Stochastic Processes and Regression Winter 2020
- ACM 117: Probability and Stochastic Processes Fall 2020
- ACM 109: Mathematical Modeling Spring 2020

## INDUSTRIAL EXPERIENCES

---

### Citadel Securities

Quantitative Research Intern

Miami, Florida

6/2022-8/2022

- Project on Alpha Research: Predicting APAC Market Returns

### Microsoft

Part Time Researcher, Mentor: Pengchuan Zhang

(virtual) Redmond, Washington

9/2021-2/2022

- Project: Stabilizing Large Scale Neural Network Training of Vision Transformers

## REFeree SERVICES

---

- Reviewer for Journal of Functional Analysis
- Reviewer for SIAM on Uncertainty Quantification
- Reviewer for SIAM on Control and Optimization
- Reviewer for SIAM on Numerical Analysis
- Reviewer for SIAM on Multiscale Modeling and Simulation
- Reviewer for Research in the Mathematical Sciences
- Reviewer for IMA Journal of Numerical Analysis

- Reviewer for Foundations of Data Science
- Reviewer for Computational Methods in Applied Mathematics
- Reviewer for the 4th International Conference on Geometric Science of Information, 2019.

## CONFERENCES AND SEMINARS

---

- Workshop on Scientific Computing and Large Data, University of South Carolina, Dec, 2023
- Numerical Analysis Seminar (virtual), Hong Kong University, Dec, 2023
- Yau Mathematical Science Center CAM seminar, Tsinghua University (virtual), Nov, 2023
- International Workshop on Recent Developments in Applied Mathematics and its Applications, Caltech, Nov, 2023
- Scientific machine learning seminar, Courant Institute, Oct, 2023
- 17th U. S. National Congress on Computational Mechanics, Albuquerque, New Mexico, July 2023
- Mathematical and Scientific Machine Learning, ICERM, Providence, June, 2023
- The AIMS Conference on Dynamical Systems, Differential Equations and Applications, Wilmington, North Carolina, May 2023
- Southern California Applied Mathematics Symposium, University of California, Irvine, April 2023
- Peking University applied math colloquium (virtual), Feb, 2023.
- Columbia applied math colloquium (virtual), January, 2023.
- The International Conference on New Trends in Computational and Data Sciences, Caltech, December 2022.
- Co-organizing the minisymposium “Recent Advances in Kernel Methods for Computing and Learning” in SIAM Mathematics of Data Science, San Diego, September, 2022.
- Southern California Applied Mathematics Symposium, Harvey Mudd College, May, 2022
- Rough Path Interest Group, The Alan Turing Institute (virtual), April, 2022
- SIAM Uncertainty Quantification Minisymposium “New Developments in Gaussian Processes”, Atlanta, April 2022
- CMX Student and Postdoc Seminar, Caltech, November, 2020
- Second Symposium on Machine Learning and Dynamical Systems, Fields Institute (virtual), September, 2020
- Bernoulli-IMS One World Symposium (virtual), August, 2020
- Oberwolfach Seminar: Beyond Numerical Homogenization, June, 2019
- Machine Learning for Multiscale Model Reduction Workshop, Harvard University, March, 2019
- Mathematical Model and Computation of Nonlinear Problems, Tsinghua Sanya International Mathematics Forum, January, 2018
- Youth Forum in the 15th Annual Meeting of CSIAM, Qingdao, China, October, 2017

## SCHOLARSHIPS AND AWARDS

---

- |  |           |
|--|-----------|
| • The W.P. Carey and Co. Prize in Applied Mathematics, 2023, Caltech                             | 2023      |
| • Kortschak Scholars Program, Department of Computational and Mathematical Sciences, Caltech     | 2018–2023 |
| • Tsinghua Xuetang Mathematics Program, Department of Mathematical Sciences, Tsinghua University | 2015–2018 |
| • Outstanding Undergraduate, Tsinghua University and Beijing                                     | 2018      |
| • Baosteel Scholarship, Baosteel Corporation   | 2017      |
| • Scholarship in Memory of the “12.9” Student Movement, Tsinghua University                      | 2016      |
| • Qualcomm Scholarship, Qualcomm Corporation   | 2016      |
| • Scholarship in Memory of Mathematics Professor Ou Li, Tsinghua University                      | 2016      |
| • National Scholarship, Ministry of Education of China   | 2015      |

## COMPUTER SKILLS

---

Professional experiences in MATLAB, LaTeX, Python, Julia.

## LANGUAGES

---

English (fluent), Chinese (native)
